Continuation of Substance of Interview including description of the general nature of what was discussed: Specifically, for claims 1 and 15, the phrase, "the narrow pass filter," was discussed. It was agreed that in an Examiner's Amendment the phrase would read "the narrow bandpass filter" to eliminate any lack of antecedent problems since "a narrow bandpass filter" appears earlier on in both claims. As for claims 10 and 25, the phrase "the motion image of the film" was discussed, for it appears to lack antecedent basis. Subsequently, it was agreed that the claims would be amended by Examiner's Amendment to reflect changes as set forth in claims 11 and 12 that eliminated any lack of antecedent basis issues. See Examiner's Amendment attached.
